Course Aims

- All organisations that work with or come into contact with children should have adequate safeguarding policies and procedures to ensure that every child, regardless of their age, disability, gender reassignment, race, religion or belief, sex, or sexual orientation, has a right to equal protection from harm.
- Setting up and following good safeguarding policies and procedures means children are safe from adults and other children who might pose a risk. This includes voluntary and community organisations, faith groups, private sector providers, as well as schools, hospitals and sports clubs.

Learning Outcomes

- Understand what safeguarding children means,
- Assess parenting capacity,
- Recognise and respond to abuse,
- Perform a physical examination in line with current legislation, and
- Know the key legislation and guidance about the safeguarding of vulnerable children and young people.

Based on current legislation and guidance, we recommend that this course must be refreshed depending on the advise and guidance from the learner's organisation.

Learners are strongly advised to seek guidance from their organisation
